

# Anglo-French Collaboration in the Nuclear Sector: The Human, Social and Ethical Dimensions

Graduate seminar, Maison Française d'Oxford, Monday 15 May 2017

## PROGRAMME

### INTRODUCTION

9:30 Opening of the workshop

---

5 min *C. Pinel*, Foreword: origins and organising principles of the workshop

---

10 min *J. Fyfe*, Context of the programme

### PANEL 1. Nations, Energy Systems and the Environment: When and Why Scales Matter

\* For each panel, short discussion times will be inserted between the talks or after the set of talks.

9:45 \*<sup>↑</sup>

---

15 min *M. Denoun*, Global warming and nuclear future

---

15 min *M. Tsuchiya*, Governing the energy policy: the pursuit of nuclear energy through the "energy transition" notion in France

---

15 min *M. Dégremont-Dorville*, What can we learn from decentralized energy systems in France?

---

15 min *J. Bouillet*, Energy consumption behaviours in France: patterns and main trends

---

11:00 Break

### PANEL 2. European Energy Policy Framework and National Nuclear Governance: Insights from the Franco-British Experience

11:15

---

15 min *T.H. Kim*, The great nuclear divergence: how France overtook Britain in the civil nuclear stage

---

15 min *E. Deront*, National, social and economic effects of the European framework on the perception of social and economic risks linked to the use of nuclear energy (France/UK)

---

12:00 Lunch break

### **PANEL 3.** Nuclear Energy, Politics and Society: Public Links to Nuclear Risks

1:40 PM

---

15 min *K. Kobyłka A. Nithesh*, Importance of risk perception and its impacts in the nuclear industry

---

15 min *C. Defard C. Giachetti A. Nivole*, Nuclear risk perception among the French public

---

2:20 PM Break

### **PANEL 4.** Future Trends in Nuclear Energy: Towards 'Liquid', 'Fragmented' and 'Mobile' Scenarios?

2:30 PM

---

15 min *M. Takahashi*, Framing nuclear power: how the Fukushima Daiichi nuclear power plant disaster has become an issue of class, gender and geography

---

15 min *P.E. Pini*, Framing the regional socio-economic impacts of nuclear power plant decommissioning: structural underpinnings and empirical displays of territorial resilience

---

15 min *C. Lloyd*, Manufacture and construction of Small Modular Reactors (SMRs)

---

3:30 PM Break

### **ROUNDTABLE SESSION**

3:45 PM

---

10 min Panel summaries

---

1h30 Roundtable debates

---

5:30 PM Closing statement and End of the workshop
